## Green Transition for Sustainable Future

In the face of pressing global challenges such as climate change and environmental degradation, the green transition of supply chains has emerged as an essential strategy for industries and enterprises dedicated to sustainable development. This pivotal transition not only alleviates environmental impacts but also enhances competitive advantage and cultivates a positive market reputation. As nations worldwide commit to achieving net-zero emissions by mid-century, governmental agencies are reassessing their objectives and establishing ambitious yet pragmatic carbon reduction targets across short, medium, and long-term horizons, with the vision of realizing a net-zero future by 2050.

This year's exhibition will illuminate the carbon reduction achievements across various sectors and delve into how innovative technologies, exemplary practices, and synergistic partnerships can propel the green transition of supply chains. It aims to serve as a distinguished platform for fostering sustainable development pathways between enterprises and their supply chains.

A gathering of esteemed experts, scholars, and industry leaders will engage in discussions on the latest international trends and challenges surrounding the green transition of supply chains. Through a rich array of exhibitions, forums, seminars, and interactive sessions, participants will have the opportunity to share success stories, exchange insights, and explore avenues for collaborative ventures. Together, let us aspire toward a sustainable future.

# TASS2025 Exhibition Categories

## Sustainable City

- Vehicle Automation
- Green Finance
- Sustainable Agriculture and Biodiversity
- Medical and Health,
- Epidemic Prevention and Health Risk Management
- Pollution Prevention
- Low Carbon Construction
- Internet of Things
- Smart Manufacturing
- Intelligent transportation
- Cleaner Production  
(Low Water Consumption /  
Low Energy Consumption  
/Low Pollution)

## New Energy

- Renewable Energy  
(Solar, Wind, Small Hydro, Geothermal,  
Biomass, Hydrogen, Ocean, Biogas)
- Renewable Electricity Sales
- Energy Storage
- Energy Efficiency
- Methane Pyrolysis
- Hydrogen Energy  
Supply Chain

## Resource Circulation

- Green Design
- Circular Textile
- Waste Management
- Waste Disposal and Desalination

## Decarbonization Techniques

- Carbon FV and Reduction
- Cap and Trade Carbon Emission Trading
- Natural Carbon Sink
- CCUS

## Institutions

- International Pavilions
- Government Entities

## Green Innovation

- Green Consumption
- AI Application
- Low Carbon Transport
- ESG Subjects
- Use instead of Own

# Exhibition Benefits

## Most Valuable Exchange Platform on Sustainable Supply

Sustainable Taiwan Expo has become Taiwan's most influential sustainable circular economy exhibition platform since its commencement in 2020. Through exhibitions, forums, and business exchange events, it creates unique exhibition value, specifically assisting industries and supply chains in their green transition and promoting sustainable development.

### International Engagement and Cooperation

Multi-country Participation  
Social Interaction  
Social Events

### Business Opportunity Matching

Business Exchange Meet  
Technical Cooperation  
Market Survey and Research

### Industry Trend Sharing

Forum Session  
Net Zero Transition  
New Knowledge on Sustainability and Recycling

### Sustainable Supply Platform

Cross-industry Exchanges  
Cooperation Plan Promotion  
Innovative Business Model Cooperation

### Net Zero Branding Promotion

Product Introduction  
Brand Image Building  
Target Market Analysis

### Innovative Thinking Empowerment

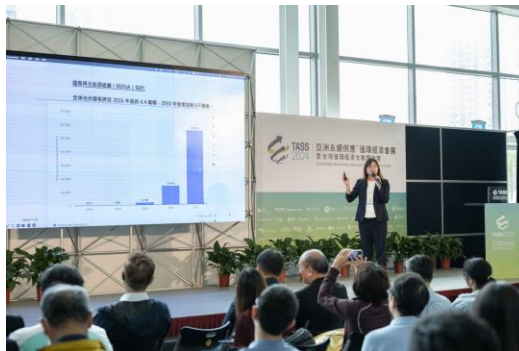

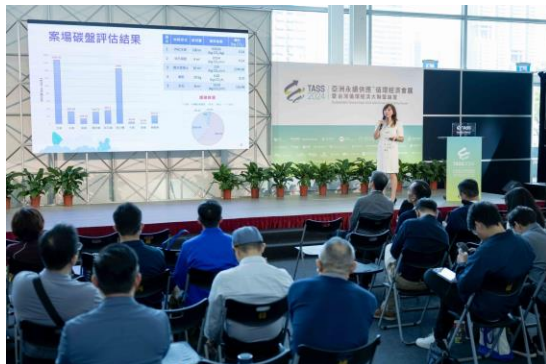

Innovative Technology  
Cross-domain Integration  
Innovative Fostering

# TASS2025 Forum

TASS Forum serves as a key platform for sharing insights on sustainable trends and presenting optimal solutions for corporate net-zero transformations.

TASS 2025 will persist in meeting the needs of attendees and industries, organizing forums on **energy transition**, **resource circulation**, and **green innovation** etc. Experts from governments, academia, research institutions, and industries will be invited to share sustainable solutions on policies and innovative technologies, seizing green business opportunities.

# TASS2025 Forum Program

Date Time	November 6, Wednesday		November 7, Thursday		November 8, Friday	
Stage	Sustainability	Innovation	Sustainability	Innovation	Sustainability	Innovation
AM			Net-Zero Transition Solutions (Session II: New Energy)	IFPSM AP Sustainable Supply Forum	Net-Zero Transition Solutions (Session V: Resource Circulation)	Net-Zero Transition Solutions (Session VII: Green Innovation)
	Opening Ceremony					
PM	2025 Taiwan Circular Economy Forum	Net-Zero Transition Solutions (Session I: Decarbonization Techniques)	Net-Zero Transition Solutions (Session III: New Energy)	Net-Zero Transition Solutions (Session IV: Sustainable City)	Net-Zero Transition Solutions (Session VI: Resource Circulation)	Net-Zero Transition Solutions (Session VIII: Green Innovation)

\*The Organizer reserves the right to change or cancel the program.
